Museum of Liverpool and went for dinner in the weatherspoons in the city, I think it is a good city overall because it has a lot of different attractions my personal favorite attraction is radio city tower and has a good variety of places you can visit and the albert dock is very good place to relax and also to walk around which is also where the Beatles story is and a few other places like museum of liverpool and merseyside maritime museum.

5 Places you can visit in Dublin/Ireland this summer

Dublin has an old rich history which dates back as far as the 12th century. It has many examples of historic architecture and one of them is a Roman style building which we will be looking at its called Casino Marino which is off the Malahide road between Marino and Donnycarney. It was once the home for Lord Charlemount who lived in the little house by the sea which is what Casino Marino means. It has 16 rooms and underground tunnels 3 levels. You can expect to see some old paintings in the casino and a twisty stairs that brings you up to the top of the Casino this would be an example of neo architecture the casino is an architectural gem. It is one of the best architectural compositions in Renaissance Europe. In present time Dublin is a modern city with a mix of old and new buildings. Newer building include the Bord Gais Energy theatre and the Samuel Beckett bridge. While still having older buildings

like Casino Marino. It has also been compared to Cormac's Chapel on the Rock of Cashel. As a class we visited Temple Bar and got a tour around Dublin which was interesting. We learnt a lot about the history of Dublin from Dublin Castle to Temple bar in around 2 hours.

Guinness Storehouse

The Guinness Storehouse was built between 1902 and 1904, it is one of the most well known attractions in Dublin. The visitor experience opened in December 2000 as the Guinness storehouse which will of had 20 million visitors by the end of 2019. The founder of the company guinness is Arthur Guinness who lived in Beaumont the tour lasts just over 1 hour you can get free pint of guinness after. I would recommend a visit because it is an interesting place to visit and you can get a free pint of Guinness at the end and you can do the tasting experience. You can see a few different buildings from the Gravity Bar on the top floor of the storehouse which is worth a visit while you are here.

Croke Park Facts

Croke Park is an iconic stadium in Dublin. Some events that happen in Croke Park include the GAA All Ireland final day which is normally around early to mid September. It is the 3rd largest sports stadium in Europe behind Wembley stadium in London and Nou Camp stadium in Barcelona. Some concerts happen in Croke Park, especially in the summer time like in June or July other events like conferences take place here. It is also the Headquarters of the GAA. One of the stands is called Hill 16 because all the rubble from the 1916 Easter Rising was collected and made the stand from it. It can also be known as Croker by people from Dublin. Before the Aviva stadium was built all sports like Rugby and Football would have taken place here but now it's mainly used for hurling and GAA.

Tayto Park

In Ireland the only theme park you can go to is Tayto park which is and has a lot of different kinds of attractions to see like the animals in a small zoo wildlife setting and some big theme park attractions like the wooden roller coaster among others like the water rollercoaster it also has a number of different restaurants that you can visit while there with different choices of foods like sandwich's tea coffee stands and more meals like burgers it also has a water roller coaster which you can get very wet on it also has a skyline walk activity and zipline which are two of my personal favourites.

(Google Image of Tayto Park)

Another example of recreation activity would be surfing along the west coast of Ireland. This would generally be the best part of Ireland for surfing as the Atlantic ocean would have stronger and more big waves suitable for surfing. You can also do other recreation activity like walking tours in different parts of Ireland of a city like Dublin or a county setting like Glendalough can walk along hills there or do a cliff walk for example in Howth their is a cliff walk you can do and you can do it at your own pace and one end of the walk starts near Howth Village other end ends near Sutton.

Dublin Zoo

Dublin zoo is the 2nd most visited attraction in Dublin. 3rd most visited in Ireland behind cliffs of moher and Guinness storehouse. It has a range of many different kinds of facilities e.g. restaurants, gift shop etc that make it a great place to visit on a day out. Animals big and small animals. Dublin Zoo runs a conservation project. They have the African plains where animals such as Elephants Giraffes and Rhinos are and the reptile house where smaller animals like reptiles are. It costs 17.50 to get into the zoo for adults age 16+ you can also visit the zoo gift shop which is just at the entrance of the zoo you can visit the gift shop at the end of your tour you can also visit different restaurants as well while in the zoo. You could easily spend a full day in the Zoo without being bored. It has plenty of animals to see and different restaurants and they have a “meet the keeper” program which means the keepers tell you about the animals that they look after in their care. They also have public feeding times for some of the different animals. Examples of this are sea lions and penguins.

(Dublin Zoo website) Dublin Zoo is also located in Phoenix park which is the largest park in Europe.
